

Warsaw Booster

Purpose of the Program

The WARSAW BOOSTER startup accelerator is a key initiative of the City of Warsaw aimed at supporting innovators' development and connecting them with Warsaw's innovation ecosystem.

The program achieves its goals by enhancing participants' skills through a wide range of workshops and one-on-one mentoring sessions, as well as by fostering collaboration between startups and large companies (including municipal entities) in potential pilot implementations. Additionally, the program supports projects that contribute to building a sustainable city and addressing climate change.

Our mission

Our mission is to select startups with the highest potential and provide them with business support that will help them verify, refine, and scale their projects, and establish a market presence. Participants in the Warsaw Booster program also have the opportunity to gain valuable experience, business contacts, and capital support for development.

For whom?

The program is dedicated to both local teams and those who want to come to Warsaw in search of new development opportunities, making the city a leading center of business and technological potential in Central and Eastern Europe.

Key Points of the Program

Selection process:

From the selected projects, the Program Jury will first choose 20 projects, and then 10 finalists.

01

Workshops and mentoring:

Participants will benefit from intensive workshops and personalized mentoring, which will enhance their business skills and enable them to implement their projects.

02

Collaboration with Municipal Companies:

The program promotes synergy between business partners and startups, focusing on potential areas of collaboration for sustainable urban development.

03

Demo Day

During the final event, the so-called Demo Day, three winning teams will be selected. Prizes of 50,000 PLN, 30,000 PLN, and 20,000 PLN are awarded for first, second, and third place, respectively.
